This course is taught in English. Textbooks and course materials are only offered in the English language.

COSMETOLOGY COURSE OVERVIEW

Course Hours: 1600 clock hours

The course is divided into pre-clinical classroom instruction and clinical service learning experiences.

1. **Pre-clinical Classroom Instruction:** The first 210 hours are devoted to classroom workshops where students learn design principles, technical information, and professional practices.
2. **Clinic Learning Experience:** The remaining 1390 hours are spent in the clinic classroom where practical experience is gained.

COSMETOLOGY COURSE OUTLINE

Your time at Paul Mitchell The School Federal Way for the cosmetology program will be divided into five designations:

1. **Core Curriculum:** A 210 hour orientation, known as the Core program, instills the basic fundamentals. Students are graded and evaluated using written, oral, and practical testing methods. Students must successfully complete the Core curriculum prior to attending regularly scheduled daily classes in cutting, coloring, permanent waving, and chemical texture services.
2. **Clinic Learning Experience:** Your clinic time will be guided with individual attention and group learning experiences using workshops and periodic tests developed specifically for this monitoring progress. This is when you begin working on paying clients in the clinic classroom area.
3. **Classroom Learning Experience:** Your classroom is divided into five (5) areas: cutting, coloring, texture, makeup, and nails. Each area has a specialist in the field who conducts the different specialty classes once a week; these may include guest artists, retail, motivation, self-improvement, nail artistry, makeup, etc.
4. **Adaptive Curriculum:** You will enter a new phase of specialty classroom workshops coupled with challenging practical services designed to continue building you into a beauty industry professional.
5. **Creative Curriculum:** You will spend your last hours at Paul Mitchell The School Federal Way in “high gear” by dressing, acting, and working like a beauty industry professional. You will use your own artistic and creative abilities, coupled with the assistance of the Learning Leaders, to prepare yourself for your future beauty industry career.

COSMETOLOGY PROGRAM TESTING AND GRADING PROCEDURE

The following tests and grading procedures are used to assess student learning and mastery of course content in the 1600-hour course:

1. **Academic theory exams:** Students must receive a grade of 75% or higher on each assigned theory exam. Exams are completed at the conclusion of each online theory module.
2. **Core written and practical skills evaluation:** Students must receive a grade of 75% or higher on each written exam and each practical skill exam in order to complete the Core program. The exams are an overview of instruction taught during the Core schedule. All Core written and practical skill exams must be passed with a 75% in order to transition to the Clinic Classroom. If students are unable to pass each exam after two attempts, the student may be asked to withdraw from the program and re-enroll in the next available Core class start date.

3. **Final exam 1:** This test covers an overview of all related cosmetology subjects (e.g., anatomy, chemistry, etc.). Students must receive a grade of 75% or higher on all final exams.
4. **Final exam 2:** The written exam covers an overview of all theory instruction, Washington state law, and other items covered on the state cosmetology exam. Students must receive a grade of 75% or higher on all final exams.
5. **Clinic Practical Skill Assessments:** Future Professionals progress in practical skill assessments and theory hours will be digitally monitored on a weekly basis by the Future Professional Advisor using the Edular app. All assigned practical skill assessments must be completed in order to complete the program.

COSMETOLOGY INSTRUCTIONAL TECHNIQUES AND METHODS

The courses are provided through a sequential set of learning steps which address specific tasks necessary for State Board preparation, graduation and job entry level skills. Clinic equipment, implements and products are comparable to those used in the industry. Each student will receive instruction that relates to the performance of useful, creative and productive career oriented activities. The course is presented through well-developed lesson plans that reflect the latest educational methods. Subjects are presented by means of lecture, demonstration, and student participation. Audio-visual aids, guest speakers, field trips, and other related learning methods are used in the course.
